PROFILE SUMMARY

Computer Science student focused on Full-Stack Web Development, with experience in React, Next.js, Node.js, Express.js, TypeScript, SQL, MongoDB, Git, and Docker. I also have knowledge of Cybersecurity, Networking, Linux, and DevOps fundamentals, including cloud, CI/CD, and containerization. Proficient in C++, Java, and Python, with strong problem-solving skills and a focus on building secure, scalable, and maintainable applications.

EDUCATION

October 6 University — Bachelor’s Degree in Computer Science | Major: CS | GPA: 3.51 (2023–2027)

Route Academy – Full Stack Development — Front-End: HTML, CSS, JavaScript, React, TypeScript, Next.js | Back-End: Node.js, Express.js (2025–2026)

NTI – Cybersecurity Training— Network Security, Firewalls, IDS/IPS | Ethical Hacking, Vulnerability Testing | Email Security, Phishing Awareness | Linux, Virtualization (2025)

DEPI – DevOps — Docker & Containerization | CI/CD & GitHub Actions (2026)

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: SQL, MongoDB, Supabase

Cybersecurity & Networking: Linux, Network Security, Firewalls, IDS/IPS, Ethical Hacking, Vulnerability Testing

DevOps: Docker, Containerization, CI/CD, GitHub Actions

PROJECTS

E-Commerce Web Application

Built a complete e-commerce platform that includes product browsing, cart system, and checkout flow. Implemented dynamic UI components and focused on performance, usability, and clean architecture. (2026)

Social Media Web Application

Developed a full-featured social media website with core functionalities such as user authentication, posting, liking, commenting, and profile management. Focused on building a responsive and interactive user interface using modern front-end technologies. (2026)

PhishShield — Phishing Simulation Platform

Created a security-focused platform designed to simulate phishing attacks for training and awareness purposes. The project emphasizes cybersecurity concepts, user behavior analysis, and secure system design. (2025)

WordPress Deployment & Security Testing

Deployed WordPress environments and conducted security testing to identify vulnerabilities. Applied security best practices to improve system protection and strengthen overall website security. (2025)

CERTIFICATES

NTI
